

BULB LIGHT SENSOR

BULB LIGHT SENSOR

A lamp that automatically turns on at night or when there is no light and turns itself off when there is enough light. No need to worry about burglars as the LED Light Sensor will function as if there is someone at home.

FRONT DOOR

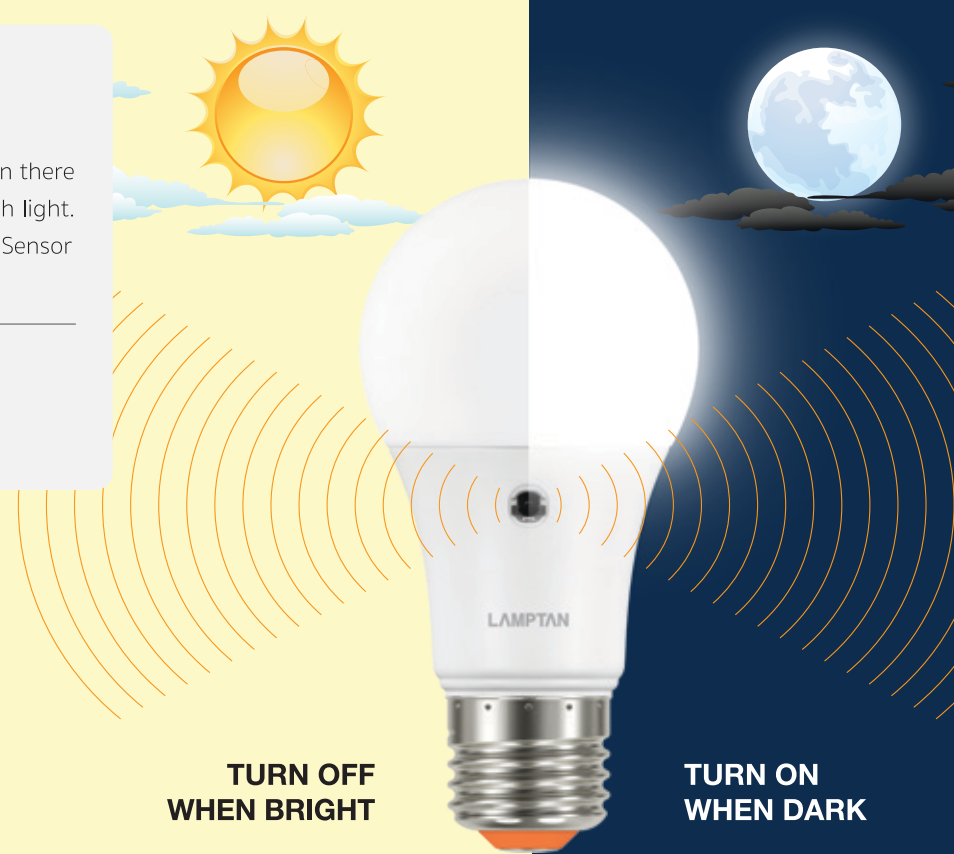

BALCONY

7w

11w

TURN OFF
WHEN BRIGHT

TURN ON
WHEN DARK

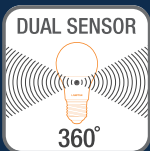

Light will turn on when it dark and will turn off automatically when dawn.

Sensor will detect only natural light.

SAFE

Accurate sensor (360°) due to dual sensor.

Beam angle 240°
